Alicia Matthews
Director, Cable Division
Department of Telecommunications and Energy
One South Station
Boston, MA 02110

Dear Director Matthews:

I am writing in my capacity as General Manager of Full-Service Broadcast Television Station WUNI-TV 27, located in Boston, and owned by Entravision Communications Corporation, in support of the petition Verizon has submitted to the Department of Telecommunications and Energy (DTE) that would establish a shorter and more predictable timeline for the competitive cable franchise process.

Entravision is a supporter of the concept of making it easier for new entrants, such as telephone companies, to enter the cable industry. As we have told the Federal Communications Commission, in its consideration of the subject, Entravision believes that robust competition among multichannel providers is good for the broadcast industry, competition and the economy. We would ask that the DTE remove the barriers from the franchising process that delay such ease of entry.

Please move quickly to adopt this proposal so more Commonwealth consumers can reap the benefits of competition.

Sincerely,

Alexander von Lichtenberg
General Manager
WUNI-TV 27
Entravision Communications Corporation
